After completing the verification form with card details and clicking submit, a message will be displayed advising the user to contact the bank for the value of the transaction amount to continue the process. The message also informs the user that an email was sent with further details. The transaction amount supplied by the bank should not include any bank fees and the value will not exceed $5 and usually stored for a period 48 hours for retrieval. It is recommended that you try to get the value from your bank within 24 hours. The merchant name that will appear on the statement or the bank records for the transaction will be UWIMONA, KIN.

Note that this transaction will be reversed automatically and NOT charged to the credit card.

3. The next step is to supply the last four digits of the credit card used and the transaction amount received from the bank or card issuing institution. This will complete the card registration process if the correct values are supplied. If you supply an incorrect transaction value more than three times, the verification attempt will be removed and you will be required to start over. In the event you are required to logon to complete the card registration, simply click the Card Verification and then Confirm card as shown in figure 6.1a and it will take you to the screen shown in figure 6.1b.
